

SABI SABI SAFARI EXTENSION

Specially prepared for
January 11 – 14, 2016

DAILY ITINERARY

Sabi Sabi Private Game Reserve sits in the heart of the Sabi Sand, one of the world's most extraordinary wildlife locales. This private 150,000-acre reserve shares a border with Kruger National Park and is named for the two rivers that flow through it. Renowned for its excellent "Big Five" viewing—the elephant, rhino, Cape buffalo, lion and abundant leopard, which were once favorite hunting targets—Sabi Sand has led the way in bringing them back.

DAYS 1–3: JANUARY 11–13, SABI SAND RESERVE

Transfer to the Federal Air terminal at Johannesburg Airport this morning for your shared charter flight to Sabi Sabi Private Game Reserve in the heart of the Sabi Sand (approximately 1.5-hour flight). You will be met upon arrival for a game drive transfer into camp.

Nestled beneath shady trees along the banks of the Msuthlu River is Little Bush Camp, the youngest of the Sabi Sabi collection of 5-star safari lodges. This exceptional camp exudes the same warmth and effortless hospitality that characterizes its sister property, Bush Lodge, providing unparalleled intimacy, seclusion and luxury accommodations for a small number of discerning travelers. Each of the six thatched, air-conditioned suites has its own private viewing deck and heated spa bath overlooking the river. Contemporary African art, designer beds, natural woods and splashes of rich color and texture set the interior scene. En suite bathrooms have egg-shaped tubs, indoor and outdoor showers, with views of the bush beyond. Elegant dinners are often served under the stars in the open-air boma, with the sounds of the African night close at hand. For the ultimate in an exclusive getaway, few places hold a candle to Little Bush Camp.

Because there are no fences between the private Sabi Sabi Game Reserve and Kruger National Park, great concentrations of wildlife move freely through this unspoiled sector of African wilderness. The diverse habitat is home to an impressive range of species including the Big Five -- lion, leopard, rhino, buffalo and elephant -- as well as cheetah, wild dog and some 200 other animals indigenous to the area. With more than 300 bird species, the reserve is also a birdwatcher's delight. Since there has been no hunting here for over half a century, the animals have become habituated to safari vehicles and are relaxed in our presence, allowing for exhilarating close-up photography. Safaris take place each morning and evening in open Land Rovers, which travel through a wide variety of habitats to maximize wildlife encounters. After breakfast, guests can venture out with a camp ranger on the reserve's walking trails to experience the natural environment on foot.

Overnights Sabi Sabi Little Bush

DAY 4: JANUARY 14, DEPARTURE

After a morning activity and breakfast today you will be transferred to the private Sabi Sabi Airstrip once again for your departing Federal Air shared charter flight to Johannesburg (approximately 1.5-hour flight).

Our goal is to provide you with an exceptional, life-enhancing adventure. To achieve that goal, our Expedition Leaders are empowered to make reasonable changes to itineraries while a trip is underway. These decisions might be made to more closely follow the movements of wildlife, to accommodate extreme weather, to take advantage of unexpected opportunities, or generally to improve overall guest experience. For this reason, the above itinerary should be considered a general outline of your trip, but it is subject to change. After all, the very definition of adventure is “an exciting or remarkable undertaking involving the unknown.”

ADVENTURE INFORMATION

TRIP PRICE & DEPOSIT

Sabi Sabi Bush, Little Bush or Selati Lodge

Jan 11-Apr 30; Jul 1-Nov 30, 2016

- Any items of a personal nature (souvenirs, massage, telephone calls, etc.)

YOUR GUIDES

During the safari you will have the services of experienced local camp guides. These guides will take you on game drives and are charged with the important responsibilities of locating wildlife and taking care of you, our traveler. Their intimate knowledge of the surrounding environment is unmatched, as they successfully track wildlife day in and day out. Not only is this the most prudent way for you to observe the most wildlife while ensuring our adventures operate smoothly, it creates revenue for the host countries, motivating the local people to continue their protection of the animals and their habitat.

ACCOMMODATIONS

Natural Habitat Adventures tends to select accommodations specifically for their intimate and secluded nature and their proximity to the world's wildest areas, exclusively giving our guests a classic nature experience without sacrificing comfort. For your specific adventure we have enhanced the style of accommodation by upgrading to some of the areas more luxurious properties. They all have private facilities unless otherwise noted.

ACCOMMODATION FACILITIES & AMENITIES

The following details include available facilities, amenities and services at each of your accommodations. Note that while we do update this information regularly, these details can and do change frequently and thus should be used as a guideline only. Please contact your Adventure Concierge team if you have any questions.

AVERAGE CLIMATE DURING YOUR SAFARI

It is important to remember that the below information is based on general climate and weather patterns so the conditions during your visit could be quite different from what is listed below. Please check the current weather on the Internet (weather.com or wunderground.com) so you can be prepared for any unseasonable weather.

South Africa

January in South Africa is mid-summer and is characterized by hot, sunny weather—often with afternoon thunderstorms, though they clear quickly. The average temperature is approximately 70 F. Afternoons can be hot with average high temperatures reaching into the low to mid-80s F. Overnight temperatures are generally very mild with an average low of about 70 F. Raingear is recommended with lightweight layers to wear underneath—a lightweight, breathable waterproof rain jacket and rain pants, along with a short-sleeved shirt and shorts or zip-off pants for warmer midday temperatures. The Western Cape Province (including Cape Town) can be hot, dry and windy at this time.

Average Temperature & Rainfall—January

Region	Low	High	Rainfall
Sabi Sand Reserve	68 °F	84 °F	3.86 in
	20 °C	28 °C	98 mm
